CONTENT

FIRSTLY
THANK YOU
FOR YOUR TIME!

We would like to thank you in your interest in our services and would love to speak further in detail if possible. Your attitude and view on the community represents what we stand for. We would love to work further with you and work out any details you may have concerns about. Our pricing is based off of either a hourly rate, or a percentage of store ownership. (Such details can be worked out further if interested via E-mail or Discord.) We are very flexible with our rates as we strive to grow our name while giving our 110% effort and work ethic!

We think CREATIVELY

Creating some of the most unique minigames with custom models, builds, textures, and more...

We stand for SIMPLICITY

Simplistic styles allowing for great ease of movement and flow through the community, while also standing strong for security.

We do amazing PROJECTS

Creating maps and server based content for 4+ years with newly releasing projects each month.

And we do it ON TIME

With 4+ years of experience, we assure that the code and scripts created are fully optimized and are scalable. Efficiency is key!

MAKING YOU

2 | # STAND OUT

IT'S WHAT WE ARE HERE FOR

We take pride in our work and we want you too as well! Ensuring our release states are quality assured and tailored as much as possible to make your services content unique!

WE MAKE THINGS SIMPLE

NEVER COMPROMISE ON QUALITY

DEADLINE IS ESSENTIAL

You don't have to worry about a thing! We will contact you weekly updating you on our progress and obtain insite from you!

Never compromise on quality as we can assure that we can find a way to implement all the areas of ideas you may have.

Upon further inquiry, we can set a stern deadline for quality assurance testing to take place in order to ensure a stable release.

OUR MAIN AREA OF EXPERTISE
What we do best

We are driven by creating experiences that deliver results for you and your brand!

WEB DESIGN

Whether it is from creating a custom store for your server, to creating a well-designed website for your company, we ensure that you receive a tailored website to distiguish your website to attract new viewers and be easily navigatable!

GRAPHIC DESIGN

We have created countless amounts of thumbnails and graphics to be put into each map, whether it was youtube thumbnails to animated textures for minecraft and advertisement posters! We can create any design you may need.

SERVER CUSTOMIZATION

Through the use of custom coded plugins and scripts, we custimize server based maps and community servers for mainstream influencers such as PopularMMOs, UnspeakableGaming, MooseCraft, and BeckBroJack!

LEVEL DESIGN

Not only do we do the functionality, but we also do the building! There is no need to hire a separate build team as we show our expertise in many different areas and types of building styles.
